

BASIC FIRE SAFETY COURSE

Directorate of Industrial Training (DIT) Course Level: I

Target Group:
The Course is Open to all workers.

Duration:
16 hours - 2 days

Fees:
US \$ 114 for tuition and training materials only

GENERAL OBJECTIVES

To provide participant with the legal requirements that govern safety in the workplace i.e. The Occupational Safety and Health Act, 2007 (OSHA) and Fire Risk Reduction Rules, (Legal Notice No. 59 of 2007) and integrate it in the overall company emergency preparedness and response programme. The course also aims at equipping participants with the necessary skills on how to safely operate portable fire equipment in order to prevent loss of life and property at the workplace. The course is designed to meet the Guidelines and Code of Conduct for Directorate of Industrial Training (DIT) 2009 edition.
